Magnum DX-Series Serial Device Routers

	Model	Description	List Price
MAGNUM DX800 Serial Device Routers			
new	Magnum DX800-01-H-P	Magnum DX800 Serial Device Router, hardened for substations and other harsh industrial environments. Four RS232 / RS485 software selectable serial ports, four Ethernet Swith ports (two 10/100 copper and two 100Mb SFP fiber). 90 - 250V DC / AC power supply, panel mounting. DIN-Rail optional. Heavy duty fully enclosed metal case used as a heat sink, no fans. Two Alarm Contacts, software controlled. Wire speed filtering and forwarding across all Ethernet ports. Software includes Async to TXP/IP, IP Routing, Per VLAN Routing, Serial Port VLANs, ICMP, ARP, Diffserv, TCP/IP Firewall, Port Security, Serial ports SSL, event logging and alarms, and more. Web-based GUI and CLI via Telnet. For licensed MNS-DX network management software information, see technical manual.	\$1,650
new	Magnum DX800-01-L-P	Magnum DX800 Serial Device Router, same as DX800-01-H-P except with 24 - 48 VDC power supply.	\$1,650
new	Magnum DX800-01-H-D	Magnum DX40 Serial Device Router, hardened for substations and other harsh industrial environments. Four RS232 / RS485 software selectable serial ports, four Ethernet Swith ports (two 10/100 copper and two 100Mb SFP fiber). 90 - 250V DC / AC power supply, DIN-Rail mounting. Heavy duty fully enclosed metal case used as a heat sink, no fans. Two Alarm Contacts, software controlled. Wire speed filtering and forwarding across all Ethernet ports. Software includes Async to TXP/IP, IP Routing, Per VLAN Routing, Serial Port VLANs, ICMP, ARP, Diffserv, TCP/IP Firewall, Port Security, Serial ports SSL, event logging and alarms, and more. Web-based GUI and CLI via Telnet. For licensed MNS-DX network management software information, see technical manual.	\$1,800
new	Magnum DX800-01-H-D	Magnum DX800 Serial Device Router, same as DX800-01-H-D except with 24 - 48 VDC power supply.	\$1,800
new	Magnum DX800-ACC-RMB	Rack-mount brackets for one DX800 unit. Spares, or for field installation / conversion.	\$40
new	Magnum DX800-ACC-RRM	Reverse Rack-mount brackets for one DX800 unit. Spares, or for field installation / conversion.	\$60
new	Magnum DX800-ACC-DIN	DIN-Rail-mount brackets for one DX800 unit. Spares, or for field installation / conversion.	\$200
new	Magnum DX800-ACC-PMB	Panel-mount brackets for one DX800 unit. Spares, or for field installation / conversion.	\$32
Magnum DX40 Serial Device Routers			
new	Magnum DX40-01-H-P	Magnum DX40 Serial Device Router. Hardened for substations and other harsh industrial environments. Two RS232 / RS485 software selectable serial ports, two Ethernet Switch ports (one 10/100 copper and one 100Mb SFP fiber). 90 - 250V DC / AC power supply, panel mounting. Heavy duty fully enclosed metal case designed for max heat dissipation, no fans. Wire speed filtering and forwarding across all Ethernet ports. Software includes Async to TXP/IP, IP Routing, Per VLAN Routing, Serial Port VLANs, ICMP, ARP, Diffserv, TCP/IP Firewall, Port Security, Serial ports SSL, event logging and alarms, and more. Web-based GUI and CLI via Telnet. For licensed MNS-DX network management software information, see technical manual.	\$980
new	Magnum DX40-01-L-P	Magnum DX40 Serial Device Router, same as DX40-01-H-P except with 24 - 48 VDC power supply.	\$980
new	Magnum DX40-02-H-P	Magnum DX40 Serial Device Router. Hardened for substations and other harsh industrial environments. Two RS232 / RS485 software selectable serial ports, two Ethernet Switch ports 100Mb SFP fiber. 90 - 250V DC / AC power supply, panel mounting. Heavy duty fully enclosed metal case designed for max heat dissipation, no fans. Wire speed filtering and forwarding across all Ethernet ports. Software includes Async to TXP/IP, IP Routing, Per VLAN Routing, Serial Port VLANs, ICMP, ARP, Diffserv, TCP/IP Firewall, Port Security, Serial ports SSL, event logging and alarms, and more. Web-based GUI and CLI via Telnet. For licensed MNS-DX network management software information, see technical manual.	\$980
new	Magnum DX40-02-L-P	Magnum DX40 Serial Device Router, same as DX40-02-H-P except with 24 - 48 VDC power supply.	\$980
new	Magnum DX40-01-H-D	Magnum DX40 Serial Device Router. Hardened for substations and other harsh industrial environments. Two RS232 / RS485 software selectable serial ports, two Ethernet Switch ports (one 10/100 copper and one 100Mb SFP fiber). 90 - 250V DC / AC power supply, DIN-Rail mounting. Heavy duty fully enclosed metal case designed for max heat dissipation, no fans. Wire speed filtering and forwarding across all Ethernet ports. Software includes Async to TXP/IP, IP Routing, Per VLAN Routing, Serial Port VLANs, ICMP, ARP, Diffserv, TCP/IP Firewall, Port Security, Serial ports SSL, event logging and alarms, and more. Web-based GUI and CLI via Telnet. For licensed MNS-DX network management software information, see technical manual.	\$980
new	Magnum DX40-01-L-D	Magnum DX40 Serial Device Router, same as DX40-01-H-D except with 24 - 48 VDC power supply.	\$980
new	Magnum DX40-02-H-D	Magnum DX40 Serial Device Router. Hardened for substations and other harsh industrial environments. Two RS232 / RS485 software selectable serial ports, two Ethernet Switch ports 100Mb SFP fiber. 90 - 250V DC / AC power supply, DIN-Rail mounting. Heavy duty fully enclosed metal case designed for max heat dissipation, no fans. Wire speed filtering and forwarding across all Ethernet ports. Software includes Async to TXP/IP, IP Routing, Per VLAN Routing, Serial Port VLANs, ICMP, ARP, Diffserv, TCP/IP Firewall, Port Security, Serial ports SSL, event logging and alarms, and more. Web-based GUI and CLI via Telnet. For licensed MNS-DX network management software information, see technical manual.	\$980
new	Magnum DX40-02-L-D	Magnum DX40 Serial Device Router, same as DX40-02-H-D except with 24 - 48 VDC power supply.	\$980
new	DX40-ACC-PMB	DX40 Panel-mount brackets. Spares, or for field installation / conversion.	\$32
SFPs (Small Form-factor Pluggables) Transceivers for DX units, 100Mb fiber			
new	XSFPEXSM	100FX Fiber Optic SFP transceiver, single-mode, 40Km distance	\$455
new	XSFPLXSM	100FX Fiber Optic SFP transceiver, single-mode, 15Km distance	\$395
new	XSFPLXMM	100FX Fiber Optic SFP transceiver, multi-mode, 2Km distance	\$300
CONFORMAL COATING for MAGNUM DX Products (add 10 to 14 working days to normal delivery lead time)			
new	CONFORM05 CRM	Conformal coating, silicone at 5 mil thickness, of interior PCBs, PS and modules of one Magnum DX Router.	\$175
new	CONFORM14 CRM	Conformal coating, heavy-duty silicone at 14 mil thickness for Oil, Gas, and Petrochemical corrosive environments. Coats interior PCBs, power supply, and modules of one Magnum DX Router.	\$220
